NOX BLAZE. SWAP IT !

You want something different, something that makes you stand out of the crowd. BLAZE, is your case. NOX has designed one of the most powerful gaming chassis of its own history.
The main feature for this case is the possibility of changing HDDs on-the-fly, thanks to its HOT SWAP SYSTEM. And this feature would definitely make your life a hundred times easier when you need to change your HDDs.
But this case has come to stay long, and has lots of amazing features like its cooling system, or its long graphic cards support, SLI & Crossfire capability and a stunning black finish.
You will find that BLAZE has an excellent cooling system ready to house up to 6 fans, and its design also features 2 pipe holes in its backside for liquid cooling. Apart from these advantages, BLAZE features an easy access to main ports such as USB, AUDIO and e-SATA, a removable top cover for easy installation of fans, PSU location at the bottom, cable management system, metal mesh side panel, etc...
Don't be hesitant, SWAP IT!.
